

HERE'S WHAT SOME PARENTS WE'VE HELPED HAVE TO SAY:

“When you have a child that can’t be diagnosed, but you know there are developmental delays, finding the right place for them, especially when they are young, is imperative. It’s one of the greatest leaps of faith our family has taken, and in hindsight, the best. Vincent has friends. He sticks up for himself. He’s engaged. He’s confident. He loves learning. WLP has connected us with the best therapists. We have a diagnosis that makes sense, and now we know what to do to help him.”

- Jodie R.

“During the last year, our family has explored many options as it relates to preschool. We have visited many schools and many center based programs that provide a mix of therapy. I knew what I wanted for my child. I just couldn’t find it. Then I was referred to Walnut Lake Preschool. What they offer is truly unique and special. The team is truly remarkable. They tune in to each child’s needs and focus heavily on social/emotional development. Their power of observation is like nothing I’ve seen anywhere else. Curriculum is tailored to the group’s developmental needs and goals. I’m so thankful that my son has found a school where he feels comfortable and has the individual attention necessary to thrive.”

- Melissa C.

“Since our daughter started attending WLP, we have seen tremendous growth, which started almost immediately. The teachers and staff are extremely helpful. The care and attention for each child is amazing. Having a team of professionals to help us along the way to give our daughter all she needs for her continued growth during these crucial years was very comforting.”
